As we call curtains on the academic year 2021 – 2022, I am filled with gratitude for another year of growth in knowledge and wisdom. We celebrate our big achievements of the year, the big events and the accolades that we received. It is wonderful for us to grow that way. I congratulate our students and our staff and the parents of our students for the achievements this year. I want to highlight the better achievements that I have seen. It is the kind of achievement that makes the prizes and awards even more worthwhile. I have seen so many of you work harder, teachers and students. I have noticed so many of you helping others. It is amazing to observe this growth in love, kindness and determination.

The world seems to glorify success as money, power, achievements and awards but I am glad to perceive the growth among our students and teachers in areas of caring and love. I am grateful for the year that has been. Thank you parents for your trust with us, thank you teachers for your dedication and selfless love and finally thank you students for your enthusiasm, exuberance and eagerness that keeps the energy level in our school so high.

Thank you and may God bless you all.

*In the words of Theodore Roosevelt*

## ‘DARE MIGHTY THINGS’

Imagine yourself standing at one point of the Earth and you throw a rock into space. Considering there is no obstruction for this rock, the rock keeps travelling and travelling further into space. But, in your imagination if you think that the space in our universe is finite then that rock will eventually hit the end of the universe which let us again imagine to be like a wall. But here a question arises, if this known universe was on our side of the wall then what lies on the other side of this same wall? Again, if there is another side to this wall, that must mean that this end that we were imagining is not really the end. Infact, if we stand on this wall and throw another rock and that rock travels and hits another wall, what would be on the other side of that wall? Hence, the paradox continuous.

The science of our universe has always fascinated me. I love to study astrophysics and also somehow, in someway, I find a philosophical connection to the vastness of our universe. When I think about this paradox, it reminds me that limits are only in our imagination. We can set it anywhere for ourselves but in reality, it is just another wall. To see the beauty of our universe, to achieve dreams that are far into the distance, we have to find the courage and perseverance to break that wall of our limits and try to pursue something beyond our imagination.

## TREE

My best friend is tree.  
Tree gives wood and furniture,  
The tree gives us leaves and fruits  
The tree makes a house from it's branches,  
The tree gives us medicine.  
The tree is not for cutting.  
The tree gives us fruits, I love the mango fruit  
The mango is the king of fruits.  
The banyan tree is the national tree.

## WHO AM I?

I am beautiful and bold,  
But I am only nine years old.  
I like to spread kindness and  
smile,  
Because a smile walks a mile.  
You have to be strong, that's what  
I am told.  
But I am only nine years old.  
I love to play and run,

## A MORNING RIDE

I woke up early at four,  
And called my friend for a morning  
walk

I got ready for jogging,  
But he wanted to go cycling.

We left our laziness aside,  
And took our cycle for a long ride.

We had a clear ride,  
Across the green valleys and rivers.

The dark shed trees,  
With lots of cherries.

We both stopped for a while,  
Can you guess why?

To see nature's beautiful sights.

We sat under a huge tree,  
Enjoyed nature's beauty.

My friend slept in my lap,  
But I got lost amidst the firmament.

After a quiet rest

I pat on his back and said,  
"It's time to leave"

Because it was six.

We reached our home on time,  
After a blissful ride

I was mesmerized by the morning  
ride

And the moment we had enjoyed.

## RAINY DAYS

The sky becomes dark  
Wohoo! The rain began,  
The sky is covered with clouds,  
I started making paper boats.

And I went out  
To play with my boat,  
One by one I put my  
boats on the water  
And I started  
singing a song,  
Pitter-patter, pitter-patter,  
Hear the rain drops  
Chitter-chatter.  
It's time to float you  
Paper boats  
And it's time to  
Dance in the rain  
Wohoo !

## A BETTER FUTURE

Tomorrow is nothing but an outcome of our actions today. For a better, happy and safe tomorrow we need to work together. We need to work together for a change. The quote, “The best preparation for tomorrow is doing your best today” by N. Jackson Brown Jr. highlights the fact that for tomorrow we need to plan and implement those plans today. If we tend to be pressed down by the weight of tomorrow’s failures, our future would be grey and dull rather than being bright. Tiny plans result in great changes in our lives. We often hear people saying about the need for a change in their lives but because of their lack of visualization and discipline, that ‘change’ never comes in their lives, and in the end we blame others for those things when it is us who is to be blamed. A society consisting these people can never develop and help in the outcome of a better tomorrow but a society having people who work as individuals are expected to create a change and lead a radiant future.

Gandhiji once wrote, “Be the change that you wish to see in the world”. Every individual has a role to play in the society. A good mindset of an individual results in a developed society which again helps to work towards a prosperous future. When we are surrounded with people who have positive thinking then we feel a positive vibe inside us and we see a ray of hope that tomorrow there would be some work towards that change. Mental and physical health both compliment each other so when we are positive we start doing things that helps us to change the ‘better future’ to a ‘better present’.

## 21<sup>ST</sup> SEPTEMBER - INTERNATIONAL PEACE DAY

Birds chirping, wind hustling alone in the early morning sun which got up and started painting the dark black sky into a bright blue sky. The bright looking milky clouds got up from sleep and started travelling around the sky visiting the wonderful environment.

Just a perfect start to a new day with new opportunities coming up. But there arises a question! Why can't we imagine our lives to be this peaceful? Because just having a peaceful surrounding is not enough to lead a calm and pleasant life, instead we need a soothing mind to move on beautifully. Due to the tensions and stress of these days, people are devoted to their work in such a way that leading a peaceful life is almost impossible.

Women are not safe, children are not safe then how can we count on a harmonious life? The only solution is unity, once we start working together for the best, we will be able to bring back peace in our lives once again because where expectations end, peace begins.

## **FIRST DAY AT MY SCHOOL**

I was shy, about to cry,  
When my mother waved  
good bye.

From the school gate,  
I walked inside,  
With my new books, pencils  
and lunch box,  
With a sweet smile.  
My teacher welcomed,  
And much to delight,  
Offered me a toffee.

It was the best day of my life,  
For I was with the teachers,  
Who taught me to touch the  
sky!

## CARMEL PRIDE

How beautiful it is to see a small child grow in the beautiful essence of greenery which Carmel provides. The respect and devotion one carries in their positive attitude. The leadership qualities and different tasks revolving around Carmel also revolves in our heart. The true nature of guiding, inspiring and making us true Carmelites, all lies in the heart of Carmel. We are self-motivated and always one step ahead of whatever task or situation may be. We are all family, and we all live in unity. We promote peace and harmony and therefore we are called Carmelites.

## LITTLE SECRETS

Dark clouds, drowsy eyes  
Gentle winds, lazy mind;  
No desire for anything but you.  
Be the sunshine of my life,  
Fill my heart with pleasure too.

Blue as the clear sky  
With puffy white clouds,  
Pleasant as a butterfly  
Moving 'round the flowers.

Cool as sea breeze  
Calming my whole.  
Yes, I'm describing you,  
The one whom I crave for  
My little secret soul.

## TRUE BEAUTY

O, I went out in search of true beauty  
Taking a leave from my duty.  
I wandered over the plains and hills,  
In search of colours of yellow and  
teal.

In search of a beauty which is true,  
I wandered below the sky which is  
blue.

Is that beauty a person or a thing?  
Is that beauty a living being?

In the scenic beauty of nature I stay,  
The trees and the birds that play.  
Beautiful flowers and hills,  
Daffodils stretched along the bay,  
Like the people who dance and play.

In this search, I found this beauty  
Which is true and lively.  
This beauty is a gift and our future,  
O yes, it's our mother nature.

## MY FAVORITE PLACE

I like a place  
Where I can learn,  
Where I can play  
And have lots of fun.  
I love that place full of beautiful  
flowers,  
And love and care  
From teachers and sisters.  
All the festivals  
Where we celebrate,  
Carmel school is the name of that  
place.

I'm ME

I am not perfect, I am me.  
I've made bad decisions and wrong  
choices, but I am Me.  
I've said the wrong things, I've said  
the right things, because I am Me.  
I don't like everything I've done,  
but I did it because I'm me.  
I've loved the wrong people and  
trusted the wrong people and I'm  
still Me....  
If I had the chance to start again,  
I wouldn't change a thing. Why? Because  
I'm Me...

## LET'S PLANT TREES

Let's plant trees,  
For the oxygen and gentle breeze,  
Save the environment,  
And make it pollution free,  
Let's plant trees.  
And save human beings,  
To live longer  
And free from disease,  
Let's plant trees.  
To give shelter to the bees,  
As they depend on the trees,  
For buzzing and pleasing other  
bees,  
Let's plant trees.  
For the bird and the monkeys,  
To sit on the trees,  
And sing for human beings.

## DO YOU THINK I DIE?

Time says, don't try to catch me  
Or else I fly away!  
It says, Man has everything he wants  
Except the time he lost.  
He loses it every time, everyday  
From day to night, birth till death.  
He wastes time like junk  
Fallen for free!  
It says, 'Do you think I die?'  
Not at-all, I just fly away  
From the man in the thin, cold air,  
Say, time will leave you empty,  
Or else just to pity.  
So, running to catch me is  
Complete stupidity!

## TAKE CARE OF YOURSELF

Teenage is a very crucial phase of our lives. During this period, we learn new things, make bittersweet memories, make mistakes, experience failure, etc. And that's how we grow up to be a successful adult. But we also face many obstacles during this time. Let's talk about those things.

We meet new people every day. Most of them will become our friends because we teenagers/youngsters easily bloom into friendship with others. Sometimes, we will face some peer pressure. So we must learn how to deal with it. First we must know how to say "no". We should not have an inclination towards carrying out destructive activities, lest we get addicted. We must also say "no" to those who invite us to play truant. We should not be easily influenced by others. Get help from someone we trust, most preferably we should not trust people around us easily as no one knows if he/she can be trusted or not. Besides, we must choose our friends wisely because true friendship is not easy to come by. True friendship requires support, trust and understanding.

We must be a wise teenager in order to avoid bullies or being bullied. Besides that, self defence is very important. We should avoid dark secluded places. Our safety should be our top-most priority at all times, be it at home, marketplace, school or while spending time with friends.

Another important thing that we must cultivate at this age is self-confidence. It is the most needed quality to move ahead in life. We must have the capability and confidence to solve our problems ourselves. Our life is our responsibility, no one else can take charge of it.

In conclusion, teenage is a time full of ups and downs. Therefore, we must try our best to avoid any kind of nuisance and lead a balanced life

## THE ENCHANTING NATURE

Ever have you beheld  
A nature like this?  
Ever have you relished  
A nature like that?

A nature filled with beauty,  
A nature filled with purity.  
The bright sunshine so philanthropic;  
A nature filled with murmuring music.

A nature so refreshing,  
The cool breeze so soothing.  
A nature filled with love  
Like the peace and divinity of a dove.

So why to destroy nature?  
Why to kill it and rupture?  
Preserve it with tenderness  
Lest we have to live in darkness.

## **MY FAMILY, MY STRENGTH**

My family is very important to me.

No matter what they did or what they are doing They'll always remain my family.

My Family is my Strength,  
My Family is my Love,  
My Family is my Support,  
My Family is my Motivator,  
My Family, My Strength.

My Family means the whole world to me,  
I love my family.  
More than my life,  
My permanent love, My Family.

My Family is the wind beneath my wings,  
My Family is the reason,  
For why I exist today.

My Family is my greatest treasure,  
Without them I can't survive.  
My Family is my life,  
My Family is my everything!

## **JOURNEY AS A 'CARMELITE'**

'Carmel' - this word actually means a beautiful garden and for my life it is perfectly suitable as it always helps me to bloom like a flower.

It was the year 2013 and the month was November when I shifted to Jorhat with my family. I was just a little girl of five years old. I used to miss my old school friends and my teachers. So, at the very beginning of my journey as a Carmelite, it was very difficult but I must say that the environment of Carmel School, Jorhat was very friendly and the motherly love and care of the teachers helped me a lot to mingle here. When I go to the past and recall my memories about the early phase of experience in Carmel, one name comes to my mind and that name is Mrs. Hemanjoli Bordoloi. She was my very first teacher in Carmel School and with her help, within one month, I could adapt to the school environment and made many friends.

Year by year with every promotion, I met so many teachers. Each and every one gave a specific role model impact to my personality, behaviour, etc, like Dimpy teacher, Salma teacher, Sobha teacher, Kankana teacher, Jayanta Sir and many other teachers also. I want to become smart, intelligent and successful like them.

Physics was such a boring subject for me from the very beginning, but in class 9 I came to know that Physics is also a very interesting and important subject and behind this the only reason is the beautiful lady, teacher Sobha. Her way of explanation is very interesting and realistic. We can relate every example given by her with our day to day life. Above all, the best example of discipline is our dear Sr. Sarita. She always motivates us to do our best in a disciplined way. She teaches us the value of time, the value of discipline and the moral values of life.

As I am a student of class 9 and after completing schooling I will have to leave Carmel for my further studies but it is sure that I will not go alone from the school. I will leave with all the golden memories of Carmel School, Jorhat. My friends and my teachers and all the memories of my journey as a Carmelite will remain forever in my heart.

## কবিতাৰ শিৰোনাম- মোৰ সুৰম্বৰ হাচা

মোৰ দুজন হাচা আছে,

নাম তেওঁলোকৰ অসুত আৰু অকিনাৰ্শ,

সিহঁতে ভাষাৰ নগত খাই তেল পায় স্নাতক আৰু স্নাতক।

এটা ইন নাজকুৰীয়া আনটো চকলোৱাৰ নগত মিনি যায়,

কিহু দুয়োটি ইন তেল নৰা আৰু মোকো তেল পায়।

সিহঁত দুয়োটিই মোৰ বাবে আঁত বিপেষ,

কৰণ সিহঁতৰ শ্ৰুতৰ কোনো সীমা নাই শেষ।

এটাই যদি মোক স্মৰণতে ফুৰাবলৈ লৈ গৈ আইচ-সীৰ ফিনি দিলে,

আনটোৱে মোক ছোফাৰলৈ মি ফুক আৰু চেচাটা ফিনি দিলে।

আমি তিনিটা নগ টা বহুত ফুটি কৰোঁ,

আৰু একেদৰে বহি নুওও য়েলোঁ।

সিহঁত মোৰ হাচা মোকৰ নগতে বহুত তেল বন্ধ,

কৰণ আমি ইজনে আনজনৰ নগত চকলোৱাৰ কথা ভোগ-বোকা কৰোঁ

মোৰ জীৱনত সিহঁতৰ অৱধান অপৰিসীম,

## BEAUTY AT ITS FINEST

Beauty as boundless as the sky,  
No matter how hard I try,  
Will never get enough of it  
For its diversity is divine.

Last night, I watched the  
raindrops fall,  
Felt like the angels call;  
The lady asked the Lord, 'What  
would  
you be if I were lightning?'  
Lord answered with glee, 'Would  
surely  
be lightning as I shall forever  
follow thee.'

The clouds beckoned the birds,  
To flee from the Earth to the  
heaven above.  
The trees swayed in the fragrant  
wind.  
Will never get over it, through  
eternity, for sure, I never did.

Sankhya Sanghita, 8 A

## FLY HIGH, BUTTERFLY

Something, someone, somewhat should know  
Praising morning is not just a show;  
It's not a race of proving one's gender great  
Feminism is all about equality of male and female.

For girls filled with FIRE,  
Who have their own dreams and DESIRE;  
You have the right to FLY,  
Because for you dear butterfly  
The only limit is the SKY!

Just like the moon and the sun,  
I know you'll RISE.  
Just like hopes springing high,  
I know you'll FLY!

You, who play different roles in one's life  
and still shine BRIGHT;  
You, who runs this world,  
From early mornings to late NIGHTS.

You, who still have to fight,  
For your existence and for your LIFE;  
You, who throughout her life sacrifice,  
Before and after becoming someone's WIFE.

You, whose eyes are filled with tears,  
You, whose life is full of fears;  
You, who is not just meant to become someone's BRIDE,  
But you, who is also everyone's PRIDE!

I know you'll one day RISE,  
Because after rain, even the sun SHINES.  
After struggling so much, you who stands still,  
Everyone should feel  
That you CAN and you WILL..

## MENTAL HEALTH

Mental health pertains to the well-being of a human being. It affects the daily life of an individual emotionally and physically; mental health is deemed as more than just the absence of mental disorders or disabilities. Having a friendly mentality helps a person to maintain a balanced life. Currently, people around the world often battle with mental health. It's a topic that is acquiring worldwide attention. Activists around the planet are advising people on how to maintain peaceful mental health. But it's the individual's own choice on how they want to treat themselves.

The world today, furthermore, creates a lot of pressure on human beings with which they get exhausted, and then it leads to serious mental health issues. Human beings are working like machines in this 21<sup>st</sup> century due to which most adults go out in sunrise to work and return home late. And after that they are left with no time to evaluate themselves or have some freedom. Even the young generations today deal with mental health issues, this is normal but if it reaches a stage where they are no more emotionally or physically stable then they should consider taking advice from grown-ups or taking counselling session.

A person confronting mental health issues can even help themselves, by doing meditation, living in an atmosphere where there is an encouraging vibe and surrounding themselves with people who don't judge. The person can sleep for more hours, eat healthy food and make a journal where they write everyday about their advancement while dealing with their mental health. Having a support network, whether it be friends or family is also helpful to deal with mental health.

According to the World Health Organization (WHO). "Mental health is a state of well-being in which an individual realizes his or her abilities and can cope with the normal stress of life, can work productively and can contribute to his or her community.

## TEACHERS

One teaches us English,  
One teaches us Math,  
One teaches us Science,  
One teaches us Social Studies.

But everyone together teach us  
Discipline,  
Everyone gives us Happiness,  
Everyone offers us Help,  
Everyone helps us to Grow.

They are the ray,  
That show us the way.  
They are the Torch,  
For the dying hope.

They don't only teach us,  
They inspire us  
They have a helping hand,  
A loving heart and a thoughtful brain.

They do so much for us,  
Which we take for granted.  
We don't give them anything,  
But still they are with us.

We should respect them,  
We should love them,  
We should not  
Let their hopes die for us,  
We should try to use  
Their support and love.

## NATURE - THE LIVING BEAUTY

Ever have you seen  
Nature like this?  
Ever have you felt  
Nature like that?

A nature filled with flowers,  
A nature filled with birds and animals,  
A nature filled with rivers, seas and  
oceans.

So why to destroy this beautiful nature?

Love as others do,  
Spread love to this beautiful nature.

We love nature's beauty,  
But some do not.

So why to destroy this beauty?  
Love as others do.

The flowers of nature,  
The birds of nature,  
The rivers of nature,  
The living beings of nature.

So why to destroy nature's living beauty?

Live as other's do.

Nature here! Nature there!

Everywhere we see,  
There is just nature.

So don't destroy it.

Love as others do.

God made this amazing nature,  
God made this lovely nature,  
So why to destroy God's creation?  
Love as others do.

## CAN WE BE EQUAL

We live in a society where a lot of differences are made. Differences based on gender, race and culture. Differences between humans and a lot more. Ages passed experiencing these differences but they never seem to end. Differences led to so much destruction and these destructions led to tremendous loss which the current generation is facing and will be faced by the upcoming generation if we do not take the right action at the right time. From the past generations till the current generation we are caged in this mentality. Frankly, our past generations are much to be blamed for the situation we face today. But from now on let us make it a motto that we will not accept this anymore. Let us save the upcoming generations from being affected by this mentality. Let us save the nation. Let us remember that we are together in this and we can together change it by our work and talk as we spread the awareness. We need to question ourselves that 'Can we change the world and be equal?' And hear your heart say 'Yes' for it is possible. Making people realize that no one is inferior or superior, that all equally deserve respect. Let's all try to get in this and make contributions wherever possible because little contributions leads to massive success. We can and we will change the world for the betterment of the present and the future.

## LAZY MORNING SCENE

A shiver rippled in my spine,  
Vibration to my mind.  
Sever'd lips with heavy blowing winds  
through,  
I woke up with no clue.  
Sitting on my bed;  
Relaxing arms and legs.

Eyes open wide,  
Rides out of the casement, my sight.  
Rethink of the dream I had.  
But can't rewind once again.

Slowly crippled to the balcony,  
Holding face on one hand.  
Back half bent and legs standing straight,  
Another hand resting on the balustrade.

The eyeballs reflect the sky,  
The pleasant scene washed away all the  
blue.

The ode of sun and the birds melody;  
Soft whistle which makes my day.

The onset of the dawn,  
Some brushing and some still sleeping.  
The silence prevails, till the sun's glare  
Out of the clear heaven.

## A STUDENT'S DEITY

The bliss had to come to a doom,  
For he could stand the happiness of none;  
But it shall no longer be  
the centre of it all,  
So, let's look around at  
the days of more fun.

The scene was opposite to that of glee,  
But who could blame me, a boy of three!  
Little did I know that leaving them will make  
my heart shatter,  
So much so that it's remnants try, but in vanity,  
to make it flatter.

Those, who I had a great disdain for,  
For they've been convicted of a crime, I  
thought;  
To have taken me away from my family,  
Oh! How I cursed them heavily.

If there was anything I could do,  
Anything at all,  
To take it all back,  
I would've not given it another thought.

Now, just to make it clear, this is not meant for  
all,  
For they're not as formidable as they call,  
A place I'd not even entitled my mother to,  
For it's been confiscated by my Guru.

# EVERY CLOUD HAS A SILVER LINING

There are multiple moments when one feels dejected and everything seems unclear and unpleasant, there is no hope and no strength left and things seem to be forever. However any person who dares to face and tackle the situation boldly has found their way.

The meaning of the idea that every cloud has a silver lining talks about not losing faith in oneself. Just like the dark clouds come with a silver lining of faith and hope, life provides one with countless opportunities. The bad days will pass, and better days are yet to come. It's all about hanging in there with hope no matter what amount of misery, tragedy and trouble we need to face, there should always be the silver lining of hope, faith and belief present, it is the desire of growth.

It is human nature to compare and demoralize themselves with others without trying to know their own worth. There is far more to life than that our small naked eyes can see.

There is absolutely no limit for the wings of imagination to fly. Just like the dark clouds obstructing the sun from shining. We should never give up and start dreaming of our fate, instead we should get up stronger and keep trying and give our level best. And we should be aware that just because we are failing doesn't mean we are not worth it.

The cycle of struggle makes us more robust and makes us more able to face all kinds of difficulties in a calmer way.

The message of hope is concealed behind every calamity.

Those silver linings tell us that the sun is somewhere behind, the clouds and such clouds will not remain in the sky forever.

## **“BOOKS: OUR BEST FRIEND”**

I live in a small world,  
Where I know the trees, the sky,  
the people, the dogs.

And I live in my books too,  
To meet a world outside my home,  
my city.

I love my books,  
As they are my best friends.

As a friend, they take me  
on a joyful ride,  
Across the countryside.  
To show me beautiful places,  
the beautiful sites.

And as I said books are  
my best friend,  
They never fight,  
They always give us knowledge  
Like a diamond bright.

**Pahi Hatibaruah, 4 A**

## **PEASANT AND HIS AGONY**

With a flourish of sweat  
down my face,  
The sunset blossoms red and gold.  
As if God graffitied rainbow flame  
upon the evening sky,  
The sunset came in its boldest blaze.

Show them a field of pod,  
Beyond comparison of  
the amount of stock it holds,  
Not a tear is shed,  
for who had it spread.  
When the sky darkened enough,  
I took my pathway  
between the hills.

The rigorous daily labour,  
Trapping us inside the Lord's jail  
built on the rods  
of harsh law and order,  
Made me question,  
How would life be if  
I were the Lord himself?  
Darkness had spread across the sky  
without a pinch of light,  
Wait, isn't that what life is  
for peasants like us?  
Feet underneath shook  
as the evil disposed  
came riding a horse,  
Everyone on their knees,  
And I prayed to the Almighty,  
to lessen our pain.

## **THE GIFTS OF NATURE**

Once I went and saw a tree.  
In its shade I felt so free.

Once I went and saw a river.  
And saw some aquatic birds  
roaming here and there.

Once I went into the rain,  
Jumping on the muddy lane.  
After a while I saw something bright  
coming out of the dark clouds.  
I jumped in its light,  
It was a rainbow day!

Once I went and something  
called out to me.  
The river, the sun, the clouds and the  
trees.  
And I was so happy for the gifts they  
have brought to me.

## HAVE YOU EVER FELT

Have you ever seen those skies  
Calm as peace?  
Staying everywhere I go.  
Peeping through it's clouds like  
windows.  
Never ever felt the calmness  
Of this nature,  
Which is as smooth as fleece.  
Reaches my heart  
Fluttering in peace.

Whispering wind of yours  
Reaches my calm soul!  
Oh! Have you ever felt the  
Buzzing of bees?  
As calm as a river  
Never been so hard.  
How calm and plain!  
The soothing sound of yours  
Takes away all my vain  
Still and strong as a tree,  
Gives me shade  
Without any change, all free.

Just like butterflies roaming in  
The daisies,  
Without any stress  
You are like a living beauty.  
Wearing a beautiful dress.  
As high as mountains,  
As deep as shallows,  
Have you ever felt the thundering  
Nature makes my heart  
Go fluttering.

## BLOOMING ROSES

Walking bare feet,  
Nothing to eat,  
Lost everything,  
Just have sickness and all  
sadness.

Suddenly found a bunch of  
roses,  
Shining in it's reddish colour.  
All I have is that much hope,  
Only these are my life.

No rose without thorns,  
I just realized,  
Finding a job and got one,  
As a mason and worked hard.

Impressed everyone and all were  
happy,  
Started getting more offers.  
Thanks to those roses who made  
my life.

Nature is the power which  
makes you strong.

Now, I have a company full of  
masons,  
No rose without thorns,  
And you also get to realize.

# WORDS FROM THE EDITORIAL TEAM

*"Creativity is to give life, colour and form to a voice that comes from within".*

*"How deeply you touch another life is how rich your life is."*

Creativity leads to innovations and innovations lead to success. A creative mind has the capability to tinge this mechanical and monotonous world with the hues of newness and liveliness. It also provides an outlet to our thoughts those stir within. "The Carmel Mind Mirage" is an effective platform to showcase various opinions, ideas and feelings in a creative and innovative way. Let us be grateful to the Almighty for being our guiding light and for His heavenly grace upon us. Heartfelt gratitude is extended to Sister Sarita Menezes, the honourable Principal of Carmel School, Jorhat for giving this wonderful opportunity to gift "The Carmel Mind Mirage" to its readers. Warm wishes to the entire Carmel family.

Being an educator helps me to think intensively and critically about the souls whose lives are defined by the goodness of true education.

My journey at Carmel began with my footsteps from Nursery when I had my first brush with the coveted institution.

Carmel is prayer, Carmel is service.

I learnt this along my journey as a student and now being a teacher at my Alma mater gives me an edge as a true Carmelite. Contemplation is at the core of the Carmel spirit. My vision as an educator is to lead my students into a community of Carmel charism.

Truly proud to be a member of the Editorial group and accepted the challenges of working in the core team.

May God bless us to encompass the true values of the institution and lead us into infinite passion for honest and diligent work

### **A.SPLENDFEROUS JOURNEY**

APJ Abdul Kalam had quoted  
*“Education is the most powerful weapon  
which you can use to change the world”.*

A decade in this noble journey of imparting education to the little ones through this hallowed institution had proved that education is indeed a powerful weapon. Today's world which is so much full of negativity, competition, hatred and cold feelings need tremendous change which is only possible through education. The present and future generation will see a vibrant world full of life and warm feelings as 'Carmel' is always working sturdily and incessantly to meet its vision of creating agents of love, peace and harmony through the education that it has been delivering since years. To be associated with such a noble cause for a decade now is undoubtedly an achievement and reason for inner happiness.
